SKU: 181358 | EAN-13: 0766623181358 | UPC: 766623181358

A Strong, Secure Base for Your Charging Kiosk

The Anti-Theft Pedestal for the Manhattan 16-Compartment USB-C Charging Kiosk (#181327) provides a stable, elevated base designed for high-traffic environments. With its solid steel construction and 200 mm height, it positions the kiosk at a more comfortable operating level and creates a safer, more accessible charging experience for users.

Enhanced Stability and Theft Protection

Engineered for permanent floor installation, the pedestal includes heavy-duty expansion anchors that secure the kiosk in a 4-point configuration. This robust mounting method greatly reduces the risk of tipping, shifting, or unauthorized removal, making it an ideal choice for schools, libraries, offices, hospitality spaces, and other public installations that demand reliable security.

Clean Cable Management for a Professional Appearance

To support neat and discreet installations, the pedestal offers cable openings with cover plates on all sides. The power cable can be routed through the base and directly into the kiosk, ensuring a streamlined, clutter-free presentation that suits modern interior spaces.

Built to Withstand Everyday Use

The weight-enhanced design reinforces the kiosk’s footprint, providing additional stability and minimizing accidental movement. Its sturdy steel materials protect the lower section of the cabinet from routine wear, including contact with cleaning equipment, foot traffic, and minor bumps common in busy shared environments.

Features:

- Provides secure floor mounting for the Manhattan 16-Compartment USB-C Charging Kiosk - 850 W (#181327)
- Heavy-duty expansion anchors for stable 4-point floor installation and enhanced theft protection
- Cable openings with cover plates on all sides for clean cable management and a professional appearance
- Raised operating height makes compartments easier to access
- Weight-enhanced base reduces tipping and accidental movement
- Protects the lower section of the cabinet from cleaning equipment, foot traffic, dirt, and minor impacts
- Ideal for high-traffic environments like schools, libraries, universities, hospitality spaces, and other public areas
- Sturdy, high-quality, cold-rolled SPCC steel construction with antistatic powder coating
- Lifetime warranty
